PROFESSIONAL SUMMARY

Linux Administrator and Systems Engineer with 5+ years of experience in system administration and web hosting support. Experienced in managing shared, VPS, and dedicated hosting environments, with expertise in server provisioning, DNS, SSL/TLS, email systems, security hardening, performance monitoring, and Linux command-line administration. Proven ability to troubleshoot complex hosting issues and provide technical support to customers worldwide while maintaining high service standards.

WORK EXPERIENCE

Mar 2024

20i Limited · England, United Kingdom

– May 2025

Technical Support Engineer

- Provisioned and managed Linux hosting environments (shared, VPS, and dedicated) on CentOS; maintained uptime SLAs through proactive monitoring and incident response.
- Installed, configured, and optimised LAMP and LEMP stacks (Apache, Nginx, MySQL, PHP); resolved DNS, SSL, and mail delivery issues within high-volume shared hosting environments.
- Diagnosed REST API integration issues (JSON/XML) for reseller clients and streamlined internal escalation processes, reducing average resolution time.
- Managed hosting environments using cPanel, and StackCP; provisioned domains, configured firewall rules (ModSecurity, IPTables), and deployed web applications.
- Integrated and managed WHMCS for billing and automated provisioning.
- Delivered technical support via phone, live chat, and email; trained customers on Linux server management and hosting best practices.

Aug 2020

Vipoint Solutions Pvt. Ltd. · India (Worked for- Liquid Web & Nexcess, USA)

– May 2023

Systems Engineer

- Administered Linux web hosting servers (RHEL, CentOS, Ubuntu) for Liquid Web and Nexcess, maintaining 99.9% uptime using Grafana for monitoring and alerting across shared and dedicated environments.
- Performed package management with RPM, YUM, and APT; authored Bash shell scripts to automate backups, log rotation, and routine maintenance tasks.
- Managed DNS zone records, SSL/TLS certificate provisioning, Postfix and Exim mail server configuration, and MySQL/MSSQL database administration including user permissions and backup scheduling.
- Hardened server security by configuring IPTables and ModSecurity rules; implemented Acronis and R1Soft backup policies aligned with disaster recovery plans.
- Provided Level 2 technical support to international hosting clients via email and live chat, resolving complex Linux server issues with high customer satisfaction scores.

Feb 2018

Microsense India Private Limited · India

– Apr 2019

Network Support Engineer

- Installed and configured LAN, WAN, and internet network systems for enterprise clients; diagnosed and resolved hardware, software, and network faults.
- Applied OS patches, service packs, and security configurations as part of preventive maintenance schedules; managed firewalls and VPN configurations.
- Monitored server and network performance; escalated critical issues to maintain optimal uptime and managed inventory of servers, workstations, and network equipment.

TECHNICAL SKILLS

Operating Systems: Linux — RHEL, Ubuntu, CentOS (primary); Windows Server

Web Servers: Apache, Nginx, IIS

Scripting: Bash, Python

Databases: MySQL, MSSQL — administration, backup, user management

Mail Servers: Exim, Postfix, Sendmail

Security & Firewall: WAF- ModSecurity, IPTables, SSL/TLS, VPN

Monitoring: Grafana, Nagios — alerting, dashboards, uptime tracking

Backup & Recovery: Acronis, R1Soft — scheduling, restore, DR planning

Virtualisation: VMware, KVM, VirtualBox

Cloud Platforms: AWS, Google Cloud Platform

Load Balancing: HAProxy, NGINX

Control Panels: cPanel/WHM, Plesk, StackCP, InterWorx

Ticketing Systems: Salesforce, Jira

Network & Protocols: DNS, SSH, FTP, HTTP/S, SMTP, IMAP, SSL — Nmap, WPScan

CMS: WordPress, Magento, Joomla, Drupal, EE, Craft

Hosting & Client Management: WHMCS

Collaboration: Slack, Microsoft Teams

EDUCATION

2013 – 2017

Calicut University — MET'S School of Engineering · Kerala, India

Bachelor of Technology, Computer Science and Engineering

CERTIFICATIONS & TRAINING

- Red Hat Certified System Administrator (RHCSA) — Training Completed
- Cisco Certified Network Associate (CCNA) — Training Completed
- Python Programming — Training Completed

ADDITIONAL INFORMATION

Languages: English (Professional), Malayalam (Native), Tamil (Conversational)

Availability: Available for immediate joining; open to relocation
